<sup>1</sup>Cash back is earned on qualifying online and mobile purchases. Cash back cannot be used for purchases or cash withdrawals until redeemed. Claim the cash back every 12 months of use and your account being in good standing. Interest is paid on money in the High-Yield Savings Account every 12 months based on the average daily balance of the prior 365 days, up to a maximum balance of \$10,000. Annual Percent Yields (APYs) are accurate as of 3/8/21 and may change before or after you open an account. Fees on your primary deposit account may reduce earnings on your savings account. The average national savings account interest rate of 0.05% is determined by the FDIC as of April 1, 2021. National rates are calculated based on a simple average of rates paid (uses annual percentage yield) by all insured depository institutions and branches for which data are available. Savings account rates are based on the \$2,500 product tier. Visit <a href="https://www.fdic.gov/regulations/">https://www.fdic.gov/regulations/</a>
