

## Follow these simple steps if your payroll or government benefits provider offers direct deposit

1. Text **DD** to **42586** or log into your account to get your bank account number. Message and data rates may apply.
2. Enter your name and bank account number for your Green Dot account in the fillable form below. The name and Social Security number on file with your employer or benefits provider<sup>1</sup> must match your account exactly or we will decline your deposit.
3. Select how much of your paycheck you want direct deposited to your Green Dot account.
4. Complete the authorization section, sign and date the form. Print or save the form and submit to your employer or benefits provider to set up direct deposit.

**TIP:** Ask your payroll or government benefits provider, how long it will take them to set up your direct deposit. If it takes longer than expected to receive your first direct deposit on your card, check back with your payroll or government benefits provider. Green Dot does not have any information about your enrollment status.
